Austria

**Short description of project**  
To develop national and institutional capacities and skills in higher education strategic management, based on new structures and mechanisms of financial management.
Specific project objectives:
- to identify the most appropriate funding model for Croatian universities, taking into account our specificities
- to increase income from sources other than the state budget
- to introduce strategic planning, structures and mechanisms for financial management
- to design the university financial and accounting information system in accordance with the best EU practice
- to establish appropriate organizational structure for successful university management
- to train the staff from the administrative and finance departments at central level and at sub-units

Description:

Short description of the task performed by Croatian partner
- inter-university meetings for Croatian partners during the project to jointly develop and analyse the present state, plans, progress made and conduct peer-review
- consortium meetings at the beginning, mid-period and at the end of the project and workshop
- monitoring visits in the first and in the second year
- designing university financial and accounting information system: initial study of project specification in the first year and main study in the second year
- site visits to the EU partner universities in the first and in the second year
- workshop at each university for the staff in the departments of planning and analyses and financial and accounting departments
- information leaflets and newsletters
- establishment of a web-site and installation of the equipment
- management of the project
