

Programme

July 3 (Monday), 2017

11:00 – 17:00	Arrival & Registration
18:15 – 18:30	Opening Keynote INTRODUCTION of the Speaker by Igor Štagljar
18:30 – 19:15	Ruedi Aebersold (ETH Zurich, Switzerland) “Genomic variability and the quantitative prototype”
19:30 – 21:00	<i>Songs, Mediterranean food and wine</i>

July 4 (Tuesday), 2017

09:00 - 13:00	Morning session
	Session I (35' talk+10min Qs) SESSION CHAIR: Bernhard Küster
09:00 - 09:45	Miroslav Radman (MedILS, Croatia) “Phenotypes of protein damage in aging and disease”
09:45 - 10:30	Marino Zerial (Max Planck, Dresden, Germany) “Systems analysis of endocytosis and endosomal signalling”
10:30 -10:50	Chosen from abstract 15+5min
10:50 - 11:10	<i>Coffee break</i>
11:10 - 11:55	Patrick Hsu (Salk Institute, USA) “CRISPR screens in human Alzheimer’s disease models”
11:55 - 12:40	Laurent Schwartz (University of Paris, France) “Toward a reasoned classification of diseases?”
12:40 - 13:00	Chosen from abstract
13:00 – 14:00	<i>Lunch</i>
	<i>1st WORKSHOP – Behind the Scenes of Scientific Publishing</i> Ruth Zearfos - Cell Reports- Maria Polychronidou -Molecular Systems Biology- Natalie de Souza - Nature Methods- Mirella Bucci - Nature Chemical Biology- Moderator: Igor Štagljar (University of Toronto, Canada)
14:00 – 15:00	
15:00 – 17:00	<i>Free activities</i>
17:00 – 20:00	Evening session
	Session II (35' talk + 10 min Qs) SESSION CHAIR: Susan Michaelis
17:00 - 17:45	Terry Rabbitts (University of Oxford, UK) “Intracellular Immunotherapy”
17:45 - 18:30	Geert Kops (Hubrecht Institute, Netherlands) “Make no mistake: chromosomal instability and genomic heterogeneity in intestinal tumor organoids”
18:30 - 18:50	Chosen from abstract
19:00 - 20:30	<i>Dinner</i>
20:30 – 21:30	Poster session

July 5 (Wednesday), 2017

09:00 - 13:00	Morning session
	Session III (35' talk + 10 min Qs) SESSION CHAIR: Margarida Amaral
09:00 - 09:45	Uwe Sauer (ETH Zurich, Switzerland) “Metabolomics as a hypothesis generator for microbe-host interactions”

09:45 - 10:30	Bernhard Küster (Technical University of Munich, Germany) “The target space of clinical kinase inhibitors”
10:30 -10:50	Chosen from abstract
10:50 - 11:10	<i>Coffee break</i>
11:10 - 11:55	Igor Štagljar (University of Toronto, Canada) “Targeting Epidermal Growth Factor Receptor (EGFR) in Lung Cancer: Towards Interactome-informed Medicine”
11:55 - 12:40	Philippe Bastiaens (Max Planck Institute of Molecular Physiology, Dortmund, Germany) “The spatially organized interdependence with tyrosine phosphatases determines epidermal growth factor receptor signaling response”
12:40 - 13:25	Iva Tolić (Ruđer Bošković Institute, Croatia) “Motor proteins driving chromosome segregation in human cells”
13:30 – 14:30	<i>Lunch</i>
14:30 - 16:00	<i>2nd WORKSHOP -Career workshop-</i> Moderator: Iva Tolić (Ruđer Bošković Institute, Croatia)
16:00 - 19:00	Evening session
16:00 – 19:00	Poster session
20:00 – 21:30	<i>Dinner</i>

July 6 (Thursday), 2017

09:00 - 13:00	Morning session
	Session VI (35' talk + 10 min Qs) SESSION CHAIR: Uwe Sauer
	“BBRC lecture” INTRODUCTION of the Speaker by Mladen Merćep
09:00 - 9:45	Susan Michaelis (Johns Hopkins University, USA) “New approaches to define degradation signals for ubiquitin-proteasome dependent cytosolic protein quality control (CytocQC)”
09:45 - 10:30	Domagoj Vučić (Genentech, South San Francisco, USA) “Proteomic profiling in therapeutic targeting of inflammatory diseases”
10:30 - 11:15	Morag Park (McGill University, Canada)
11:15 - 11:30	<i>Coffee break</i>
11:30- 12:15	Michael Hall (University of Basel, Biozentrum, Basel) “mTOR signaling in growth and metabolism”
12:15 - 13:00	Maria Sibilija (University of Vienna, Austria) “EGFR signalling networks in cancer development”
13:00 - 14:00	<i>Lunch</i>
14:00 - 20:00	<i>Excursion</i>
20:00 - 21:00	<i>Dinner</i>

July 7 (Friday), 2017

09:00 - 13:00	Morning session
	Session V (35' talk + 10 min Qs) SESSION CHAIR: Terry Rabbitts
09:00 - 09:45	Margarida Amaral (University for Lisbon, Portugal) “Omics of CFTR: Translating Science into Treatment”
09:45 - 10:30	Klaus Seuwen (Novartis, Basel, Switzerland) “Adhesion G protein-coupled receptors”
10:30 - 11:50	Chosen from abstract

10:50 - 11:10	<i>Coffee break</i>
11:10 - 11:55	John Yates III (The Scripps Research Institute, USA) “The CFTR Interactome”
11:55 - 12:40	Anita Kriško (MedILS, Croatia) “Proteometabostasis in safeguarding cellular longevity”
12:40 – 13:00	Chosen from abstract
13:00 - 14:30	<i>Lunch</i>
14:30 - 17:00	<i>Free activities</i>
17:00- 17:30	<i>Coffee break</i>
17:30 - 17:45	Closing Keynote INTRODUCTION of the Speaker by Miroslav Radman
17:45 – 18:30	Tony Hunter EMBO Member (Salk Institute, USA) -The EMBO Keynote Lecture- “How important is histidine phosphorylation of proteins?”
20:00 - 24:00	<i>Conference Banquet</i>

July 8 (Saturday), 2017

Departure
